Fontaine International and Fontaine Parts Connection Add Key Personnel

Irondale, Ala. (April 17, 2008) – Leading fifth wheel manufacturer **Fontaine International** has hired Emma Thompson as vice president of finance. She is charged with overseeing all financial aspects of the company's operations worldwide, including North America, Europe and Brazil. **Fontaine Parts Connection** has hired Paige Dahlke as controller. Dahlke manages the aftermarket company's U.S. and Canadian financial operations.

For Thompson, her new position is a familiar one. She had similar responsibilities when she was Fontaine International's controller from 2002 to 2005. For the last three years, she has served as assistant sector controller for Fontaine's parent company, Marmon Highway Technologies.

In total, Thompson brings more than 25 years of experience to her new role. She joined Fontaine International as controller for the company's manufacturing facility (now closed) in North Carolina in 1994. She was promoted to assistant controller for the company and moved to Birmingham, Ala., in 2000. Previously, she spent 13 years with Siemens Energy and Automation in North Carolina as a cost accountant.

Thompson earned a bachelor's degree in accounting from North Carolina Wesleyan College.

"We were thrilled when Emma agreed to return to Fontaine International in this key position," says Henry Bell, president of Fontaine International - North America. "We are confident that with her in charge, all of our accounting functions will be taken care of properly. Her business insights, delivered with her straightforward style, will be invaluable."

Dahlke has 15 years of financial management experience. Immediately prior to joining Fontaine Parts Connection, she was chief financial officer for American Pipe & Supply, a wholesale pipe and plumbing warehouse distributor based in Birmingham. She joined American Pipe from a controller position with its parent company, Sterling Capital Management.

Dahlke earned a bachelor's degree in business administration with a concentration in accounting from Samford University in Birmingham. She is a certified public accountant (CPA), and is a member of the American Institute of Certified Public Accountants (AICPA) and the Alabama State Society of Certified Public Accountants (ASSCPA). She was selected to participate in an Alabama women's leadership program called Momentum, which provides women in the state with the tools they need to become dynamic leaders.

“As a new company dedicated to the aftermarket, Fontaine Parts Connection needs someone with Paige's experience and leadership skills to guide us in developing pricing and costing strategies and to ensure that we meet all of our compliance requirements,” says Roger Crawford, president of Fontaine Parts Connection. “It is a pleasure to welcome her to our team.”
