FONTAINE ISO 14001 CERTIFIED AT ALL FACILITIES

IRONDALE, ALABAMA -- Fontaine International, the recognized technology leader in the fifth wheel industry, has received certificates for ISO 14001 registration-- an internationally recognized and accepted Environmental Management System Standard.

ISO 14001 is a useful tool that challenges everyone in an organization to be active agents of change promoting environmental protection, resource conservation and improved efficiencies. "When every employee at every facility is encouraged to think differently, it naturally leads to the creation of innovative processes, products and services for our customers worldwide," remarked Brian Ballard, president of Fontaine International. There is mounting evidence that companies which manage not only the standard economic factors but also the environmental and social factors affecting their business show financial performance superior to those which fail to manage all three.

For more information, contact Ward Kolpack, Fontaine International, 5000 Grantswood Road, Suite 200, Irondale, Alabama 35210. Phone: 800-874-9780. Fax: 205-421-4400. www.fifthwheel.com.
